The Pyramid Model

Early Childhood PBIS refers to PBIS implementation within early childhood settings-The Pyramid Model. The Pyramid Model is a multi-tiered framework within a continuum of evidence-based practices to promote expected behavior, prevent problem behavior, and intervene when students need more support. These practices promote the social/emotional outcomes of all children.

The services provided to your district by becoming an early childhood PBIS school are free-yes free! We would love to onboard your district!
