

Using Preschool Behavior Data Purposefully

This session provides an overview why we should collect behavior data and how to efficiently collect behavior data so that you can use it purposefully.

To complete this professional learning session, please follow the steps below. After you complete and submit the Google form, your submission will be reviewed, and you will be assigned 1 hour of PD credit. ECE-TRIS credit is not available. You will receive a certificate of completion via email.

If you have questions or experience any difficulty in completing this session, please contact me via email at misty.head@berea.kyschools.us

1. Please watch the following video using the link below:
Introduction, overview, and samples of behavior collection:
